

## French Fold

---

1. Print your spread and trim to outside of the crop marks.
2. Fold page in half.
3. When all pages are folded, trim together for a uniform edge.  
You can do this by clamping the pages together and using an x-acto blade or using a guillotine.

4. Add Cover, same size as trimmed pages.
5. Bind pages using a wire-o or spiral binding machine.  
Another artistic option is Japanese stab binding.
